

Gift the gift of great skin this Christmas

Hailed as ‘the best-kept beauty secret’¹ by those in-the-know, argan oil is the perfect gift for any beauty addict. Naturally rich in Vitamin E and antioxidants, it hydrates and nourishes the skin, effectively smoothing, soothing and reducing the appearance of fine lines.

At www.wildwoodgroves.com, you will find a range of exclusive argan oil blends using only the finest natural ingredients. The company is run by Ruth Hajioff, one of Europe’s leading experts on argan oil. Her unique production centre in Morocco, the heartland of the argan tree, produces argan oil of the highest quality. Passionate about preserving both the argan tree and the traditional lifestyle of local women, Ruth personally ensures every product is ethically produced, fairly traded and of the highest quality.

Kind to sensitive skin and with no synthetic additives, it’s no wonder these truly affordable wonder products have beauty editors and celebrities around the world hooked. Just a few drops can do the job of any expensive daily moisturiser or cream, helping to protect against free radical damage to the skin, reduce wrinkles and improve elasticity.

Beautifully presented, there is a product in the range to suit any skin type. And to make things that little bit easier this Christmas, the experts at Wildwood Groves have put together an exclusive line of ready-made gift sets, complete with beautiful Thuja boxes, handmade exclusively by Moroccan craftsmen. Alternatively, you can create your own tailored gift package, delivered straight to your door in a striking gold organza gift bag, or gift-wrapped in handmade mulberry paper and raffia.

Prices start from just £12.50 for 15ml. Find your perfect gift online at: www.wildwoodgroves.com

Final order date for Christmas is Tuesday 21st December. Contact Abi at PR4 for product information, samples and images:
